why choose a miracle card?

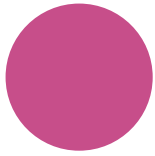

Our cards are hand printed in fair trade projects.
(IFAT registered)

These projects promote training and trade, working on the adage *'give a man a fish and feed him for a day, give him a fishing rod, and feed him for life'*.

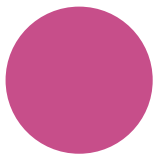

They work in the poorest areas of India, with disadvantaged people groups and train in screen printing, and offer employment.

Our hand made Indian paper is made from recycled paper and cotton.

Our designs are exclusive, contemporary and available to our customers.

We offer a bespoke service for our Christmas cards. Christmas cards are a wonderful way to keep in contact with customers, colleagues and friends. Be proud to send a card that makes a real difference, and take this opportunity to be part of the difference.

"We have been delighted by the whole service delivered by the team at 'I Believe in Miracles'. Their handmade cards are excellent quality." **Sam Hardwick** MLS Group PLC
